

Samsara Integration Guide

Connect your devices for automated tracking on brokers' loads.

To integrate with Trucker Tools, please enable Trucker Tools in your Samsara account Marketplace.

Please note: you must have admin permissions to proceed.

1 Click the button below, and enter your MC number

Enter your MC number in the corresponding field once you click the button below. If you do not have an MC, please use your DOT or alternative identifier.

Enable Trucker Tools

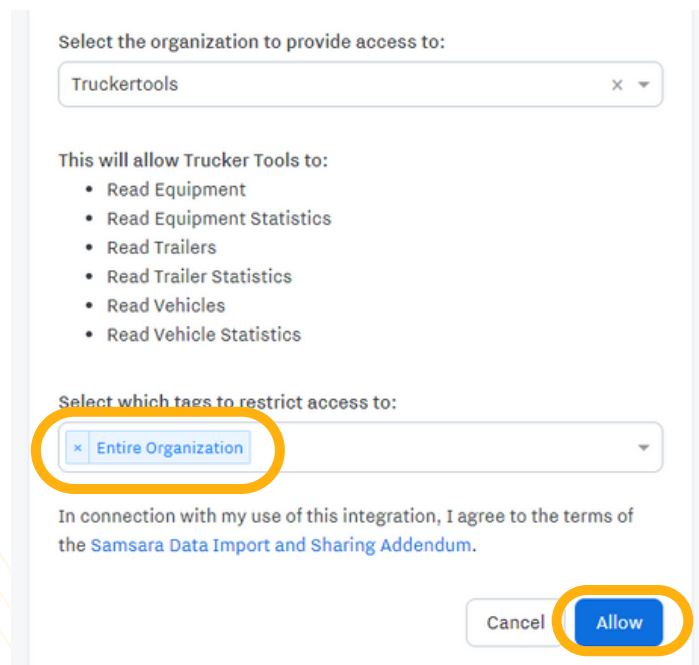

2 Login to your Samsara account

You may be prompted to login to your Samsara account after entering in your MC. Please login with your **admin credentials**. You must have admin permissions to proceed.

If you try to complete these steps with login credentials that do not have admin permissions, you will receive an “Unauthorized error”. Please have your admin user complete these steps.

3 Enable Trucker Tools

- Ensure the proper organization is selected from the drop-down menu.
- Please keep the default “Entire Organization” tag selected.
- Click “**Allow**”

4 Your integration is now complete!

Once you have successfully integrated, you will be redirected to a confirmation page. Trucker Tools will also notify you via email that your integration is successfully completed!
